Carlos,

I have attached several documents that are pertinent to the pilot system. Please contact me if you need additional information.

Jean

Jean,

I need your help in documenting the pilot groundwater injection system that is currently being used at the site. I believe the pilot started back in 2005 and is currently still being conducted. Our site record are missing the documents that McKesson submitted for EPA and ADEQ review and EPA's approval to start the pilot project. Please send information that you have on the process that took place for this activity. Thanks for

your help. CAS
